Sleep Medicine: Essentials and Review Teofilo Lee-Chiong

Sleep Medicine is one of the fastest growing fields of medicine and of strong interest to neurologists, psychiatrists, psychologists, pulmonologists, otolaryngologists, and the technologists who perform sleep studies. Almost all of the major medical centers in the US now have centers for sleep disorders. In 2007, sleep medicine will become an official medical subspecialty, with board examinations being administered by the American Board of Medical Specialties. *Sleep Medicine: Essentials and Review* will cover this new field by providing a book that can be used both as a practical, outline-style text for managing sleep disorders and as a "high yield" review for preparing for the sleep medicine board exam. In addition to the text, the author will include 150 board-type multiple choice questions with answers and explanations. Dr. Lee-Chiong is a major authority in the field and author of a comprehensive sleep medicine textbook.
