Recuerdos del teide (Escala en Tenerife) (Spanish Edition) Nicolás [Ed.] González Lemus

El Teide es uno de los mitos geográficos más importantes de la historia, irremediabilmente destinado a desempeñar un papel de primer orden en la historia cultural y científica de Europa y de Canarias, hasta el punto que sin su presencia muchas de las expediciones científicas y visitas a Tenerife no se hubieran realizado. Los marinos, navegantes y viajeros implicados en la navegación atlántica lo tomaron como punto de referencia en sus rutas y llegó a ser acreditado como la montaña más alta del mundo hasta entonces conocido.

¿Cómo fue ese acercamiento al Teide a lo largo de la historia? ¿Quiénes fueron los principales protagonistas? ¿Cómo lo contemplaron? A esta y otras preguntas pretende dar respuesta este libro. Para ello el texto incluye un sucinto ensayo que sitúa las coordenadas culturales, sociales y políticas de su historia desde el momento de su incorporación a la cultura europea occidental hasta el presente; asimismo contiene una antología de textos que permitirá al lector acercarse a las diferentes sensibilidades de sus autores; finalmente se ofrece una relación biográfica de navegantes, naturalistas y viajeros que han mencionado o ascendido el Teide a lo largo de la historia.
