Learning to Flourish

Daniel R. DeNicola

Learning to Flourish Daniel R. DeNicola

Learning to Flourish offers a lucid, penetrating, philosophical exploration of liberal learning: a still-evolving tradition of theory and practice that has dominated and sustained intellectual life and learning in much of the globe for two millennia.

Daniel R. DeNicola weighs the views of both advocates and critics of the liberal arts, and interprets liberal education as aimed supremely at understanding and living a good life, as a vital tradition generating five competing but complementary paradigms that transcend theories of curriculum and pedagogy and are manifested in particular social contexts. He examines the transformative power of liberal education and its relation to such values as freedom, autonomy, and democracy, reflecting on the importance of intrinsic value and moral understanding. Finally, he considers age-old obstacles and current threats to liberal education, ultimately asserting its value for and urgent need in a global, pluralistic, technologically advanced society.

Offering a bold yet nuanced theory of liberal education, this study will be of great interest to educators as well as those specializing in Philosophy of Education.

This e-book offer you information that might be your friend doesn't realize, by knowing more than various other make you to be great individuals. So , why hesitate? Let's have Learning to Flourish.

Lillian Vaughn:

As we know that book is important thing to add our expertise for everything. By a book we can know everything we want. A book is a group of written, printed, illustrated or even blank sheet. Every year has been exactly added. This e-book Learning to Flourish was filled concerning science. Spend your time to add your knowledge about your scientific research competence. Some people has diverse feel when they reading some sort of book. If you know how big benefit of a book, you can sense enjoy to read a book. In the modern era like currently, many ways to get book which you wanted.

Peter Lombard:

As a scholar exactly feel bored in order to reading. If their teacher questioned them to go to the library or make summary for some book, they are complained. Just very little students that has reading's internal or real their hobby. They just do what the trainer want, like asked to the library. They go to generally there but nothing reading really. Any students feel that studying is not important, boring along with can't see colorful photographs on there. Yeah, it is to be complicated. Book is very important to suit your needs. As we know that on this period, many ways to get whatever we really wish for. Likewise word says, ways to reach Chinese's country. So , this Learning to Flourish can make you feel more interested to read.
