## **Repetitorium Palliativmedizin (German Edition) Matthias Thöns**

Palliativmedizin ist die Behandlung von Patienten mit einer nicht heilbaren und fortschreitenden Erkrankung sowie begrenzter Lebenserwartung. Dabei steht nicht die Verlängerung der Lebenszeit an erster Stelle, sondern die bestmögliche Lebensqualität. Eine optimale Schmerztherapie und Symptomkontrolle spielen eine sehr große Rolle, ebenso wie die Integration der psychischen, sozialen und spirituellen Bedürfnisse des Patienten, der Angehörigen und des Behandlungsteams in der Phase der Erkrankung, des Sterbens und der Zeit danach. Dazu bedarf es neben gutem Fachwissen insbesondere einer besonderen Haltung zu Sterben und Tod.

Das vorliegende Repetitorium orientiert sich an den Weiterbildungsinhalten für die Zusatzbezeichnung „Palliativmedizin“. Ein Autorenteam aus der Praxis der ambulanten und stationären Palliativversorgung vermittelt prägnant und praxisnah die wesentlichen Aspekte für die Begleitung Sterbender: Grundlagen der Palliativmedizin, Behandlung von Schmerzen und anderen belastenden Symptomen, psychosoziale und spirituelle Aspekte, ethische und rechtliche Fragestellungen, Kommunikation, Teamarbeit und Selbstreflexion.

Zahlreiche Fallbeispiele - ähnlich den Fallseminaren - zeigen reale Situationen anhand derer Entscheidungen und Problemsituationen nachvollzogen werden können und vermittelt sinnvolle Lösungsstrategien. Das Werk richtet sich an alle Ärzte, die palliativmedizinisch tätig sind oder die Zusatzbezeichnung „Palliativmedizin“ erwerben möchten. Der bewährte Repetitorium-Stil garantiert systematisch aufbereitete Inhalte, absolutes Praxiswissen und eine optimale Prüfungsvorbereitung.
