Blogosphere: The New Political Arena

Michael Keren

Blogosphere: The New Political Arena Michael Keren

Examining the web logs, or blogs, of individuals from a variety of continents and cultures, this book highlights the nature of 'blogosphere,' the virtual public arena of the early 21st century, which alters the traditional world of media and politics. It characterizes this new arena by the unique combination of a fresh voice of emancipation and a deep sense of melancholy and isolationism. This journey through blogosphere highlights major forces operating in today's politics: apathy toward political affairs, resistance to globalization, a quest for redemption through religious fundamentalism and terrorism. Michael Keren compares bloggers to terrorists, arguing that while the methods advocated by the two groups are obviously very different, they both represent a similar trend, one of diversion by respected but disenchanting citizens from the norms of civil society to a fantasy world in which the excessive use of words_or bombs_would make everybody listen.
