Una de las voces más emblemáticas de la poesía peruana contemporánea. La contención, el refrenamiento y la transculturación de su origen japonés con la mitología andina y mochica son aspectos que circundan su trabajo. La extrema simpatía por la naturaleza y su relación con la parábola y los refranes populares logran una carga afectiva y sincera. Esta antología general, única en México, incluye una introducción elaborada por la Dra. Tania Favela así como una larga entrevista con el autor.
