## **The Psychobiology of Sensory Coding: Volume 1 (The Uttal Tetralogy of Cognitive Neuroscience)**

William R. Uttal

Originally published in 1973, this book deals with what were, even at that time, the well-known neural coding processes of the sensory transmission processes. The book was written to demonstrate the common features of the various senses. It concentrates on the most peripheral neural aspects of the senses starting with the physical transduction process and culminating in the arrival of signals at the brain.
