## **The Struggle of Major Powers Over Syria, The** Jamal Wakim

In this book, Dr. Jamal Wakim argues that the success or failure of Syria's policies is directly linked to the degree to which these policies accord with those of Iraq, Turkey, Egypt and Saudi Arabia, and that it has been subject throughout its history to competition between the forces occupying the geostrategic spheres that surround it. He further argues that the influence of these spheres is not restricted to foreign policy, but also extends to interaction with cultural, economic and social groups, thus transforming the geo-political to geo-cultural, geoeconomic and geo-social. Ordered chronologically, the book deals chapter-by-chapter with the different conflicts and struggles that have surrounded Syria throughout history, detailing the constant struggles to control it by Mesopotamia, Anatolia and Egypt. The book attempts to understand the political changes that have taken place during the term of President Bashar Assad, including the role of the 'superpowers' in seeking to achieve control of the region; and concludes that whoever controls Syria can tighten their grip on Iraq, Turkey and Egypt, and thus the whole of the Middle East.
