## Business and Technology in China (Understanding China Today) Jing Luo

*Business and Technology in China* offers a perceptive look at China's economic wonder and the science/business partnership that is pointing the way to its future. In a series of narrative chapters, the book marks China's astonishing transformation into a global manufacturing powerhouse, with specific coverage of the devastating human and environmental impact of that growth, the effects of the 2008 global financial crisis, and China's new Initiatives for creating a more sustainable economic model.

*Business and Technology in China* shows why China's renewed focus on scientific and technological innovation as an economic driver is so important. Drawing on extensive research, author Jing Luo makes the case that China's new model can still produce significant growth, even as it sets the stage for improved living standards and smarter environmental stewardship.
