Prontuario di Cinometria (Italian Edition) Mario Canton

La necessità di classificare un insieme di elementi nasce ogni qualvolta ci si trovi a gestire gruppi costituiti da numerosi elementi. Si rende allora evidente l'esigenza di suddividere gli elementi in gruppi più piccoli per migliorarne la gestione.

In questo testo si parla – prevalentemente – di misure e proporzioni rilevabili nei cani e di come utilizzarle ai fini della descrizione e della classificazione delle razze canine.

Nei limiti del possibile si è cercato di illustrare concetti e operazioni mediante un abbondante apparato iconografico, sperando che lo stesso faciliti la loro corretta comprensione.

Tutto quanto contenuto in questo testo si riferisce all'aspetto dei vari soggetti e non alla loro funzione, tanto meno alla loro funzionalità.

Semplicemente si è voluto radunare in una unica sede – per comodità di consultazione – tutta una serie di dati relativi alle «misure» che possono tornare utili nella schedatura dei vari soggetti per le più diverse finalità: classificazione, allevamento, selezione o altro.
