**The Rules of Inheritance: A Memoir** Claire Bidwell Smith

**A powerful and searingly honest memoir about a young woman who loses her family but finds herself in the process.**

In this astonishing debut, Claire Bidwell Smith is just fourteen years old when both of her charismatic parents are diagnosed with cancer. With an impatience typical of youth, Claire throws herself at anything she thinks might help her cope with the weight of this harsh reality: boys, alcohol, traveling, and the anonymity of cities like New York and Los Angeles. By the time she is twenty-five years old they are both gone and Claire is very much alone in the world.

What is so remarkable about this tale is not always the story itself, but rather Claire's ability to let you into it. Both the clarity of her self-reflection and the unconventional framework the author uses to navigate her story turn the memoir genre on its head and make this book impossible to put down. Bringing a fresh eye to the world of grief, this book is evocative of both *A Heartbreaking Work of Staggering Genius* and *The Year of Magical Thinking*, and Claire's journey is at once heartbreaking, uplifting, and utterly unforgettable.
