An Introduction to Medicinal Chemistry

Graham L. Patrick

An Introduction to Medicinal Chemistry Graham L. Patrick

An Introduction to Medicinal Chemistry is the leading text for university courses on this subject. Renowned for being a textbook loved equally by both students and lecturers, it presents complete coverage in an accessible and engaging style.

The text begins with the essential biochemistry on which an understanding of medicinal chemistry is built, introducing the structure and function of important drug targets. It then explores how drugs interact with the body and the consequences of those reactions. There is a section on general principles and strategies involved in discovering and designing new drugs, and another on useful 'tools of the trade'. The text ends with a contemporary look at specific topics within medicinal chemistry, for example, antiviral and anticancer agents; cholinergics and anticholinesterases; and antiulcer agents.

Learning features throughout An Introduction to Medicinal Chemistry help to unlock this fascinating subject. A glossary helps to familiarise the language of medicinal chemistry. Boxes present in-depth material and explore how concepts are applied in practice. Key points summarise sections within chapters, providing a basis for revision, and questions at the end of chapters and on the accompanying Online Resource Centre allow the reader to test their understanding and develop molecular modelling skills.

Online Resource Centre

The Online Resource Centre features:

For registered adopters of the book:

- Answers to end-of-chapter questions
- Figures from the book
- Power Point slides
- Test Bank questions

For students:

- Multiple Choice Questions
- Web articles
- Molecular Modelling Exercises
- 3D Rotatable structures

Now, why not trying An Introduction to Medicinal Chemistry that give your satisfaction preference will be satisfied simply by reading this book. Reading practice all over the world can be said as the way for people to know world a great deal better then how they react when it comes to the world. It can't be stated constantly that reading addiction only for the geeky person but for all of you who wants to possibly be success person. So , for all you who want to start reading as your good habit, you could pick An Introduction to Medicinal Chemistry become your own starter.

Rhonda Yowell:

As a scholar exactly feel bored to help reading. If their teacher requested them to go to the library or to make summary for some publication, they are complained. Just very little students that has reading's spirit or real their hobby. They just do what the professor want, like asked to the library. They go to generally there but nothing reading seriously. Any students feel that examining is not important, boring and also can't see colorful pics on there. Yeah, it is to become complicated. Book is very important for you. As we know that on this period of time, many ways to get whatever we really wish for. Likewise word says, many ways to reach Chinese's country. So , this An Introduction to Medicinal Chemistry can make you truly feel more interested to read.

Sharon McMichael:
