Food Toxic (Italian Edition) Antonio Moccia

La multinazionale del 'falso' fattura 200 miliardi l'anno in tutto il mondo, ma la cifra è destinata a crescere del 74,5% in dieci anni, in linea con la dinamica del commercio internazionale. La contraffazione è un 'affare' di dimensioni globali che in Italia 'vale' 6.924 milioni, pari allo 0,45% del Pil. Il nostro Paese è il primo in Europa per quantità di merce sequestrata: tra il 2008 e il 2013 si sono registrati 99.748 sequestri per 334,5 milioni di pezzi contraffatti del valore complessivo di 3.789 milioni. A rivelare le dimensioni del fenomeno della contraffazione è un rapporto di Confartigianato. "La contraffazione – sostiene il Segretario Generale della Confederazione (Confartigianato), Cesare Fumagalli – è un business colossale e globalizzato che gira a pieno regime ed è tra le cause della crisi delle piccole imprese manifatturiere made in Italy". Ma è soprattutto sul fenomeno della contraffazione alimentare che soffermeremo la nostra attenzione e su come le mafie hanno messo le mani su tale business. Inoltre dedicheremo un'ampia parte a quello che oggi è considerato ORO BLU, cioè l'acqua. L'ONU calcola che entro il 2025 una persona su 3 soffrirà di mancanza d'acqua. A questo si aggiunge il business di rinchiudere sempre più spesso l'acqua nelle bottiglie di plastica, facendo un piacere alle industrie, ma allo stesso tempo un danno all'ambiente: per mettere sul mercato 6 miliardi di bottiglie di plastica da 1,5 litri, servono 456 mila tonnellate di petrolio e oltre 1,2 miliardi di tonnellate di CO2 emesse per produrle. Tutto questo accade oggi, ma ogni giorno, ogni 15 secondi un bambino muore per disidratazione. (Versione aggiornata)
