Chinese Religious Life

Chinese Religious Life

Written by a team of internationally renowned scholars, this volume provides an in-depth introduction to religion in contemporary China. Instead of adopting the traditional focus on pre-modern religious history and doctrinal traditions, *Chinese Religious Life* examines the social dimensions of religious life, with essays devoted to religion in urban, rural, and ethnic minority settings; to the religious dimensions of body, gender, environment, and civil society; and to the historical, sociological, economic, and political aspects of religion in contemporary Chinese society.
