Embracing Reason: Egalitarian Ideals and the Teaching of High School Mathematics (Studies in Mathematical Thinking and Learning Series) Daniel Chazan, Sandra Callis, Michael Lehman

This book tells a single story, in many voices, about a serious and sustained set of changes in mathematics teaching practice in a high school and how those efforts influenced and were influenced by a local university. It includes the writings and perspectives of high school students, high school teachers, preservice teacher candidates, doctoral students in mathematics education and other fields, mathematics teacher educators, and other education faculty. As a whole, this case study provides an opportunity to reflect on reform visions of mathematics for all students and the challenges inherent in the implementation of these visions in US schools. It challenges us to rethink boundaries between theory and practice and the relative roles of teachers and university faculty in educational endeavors.

From reader reviews:

Greta Harty:

The book Embracing Reason: Egalitarian Ideals and the Teaching of High School Mathematics (Studies in Mathematical Thinking and Learning Series) can give more knowledge and also the precise product information about everything you want. So just why must we leave the great thing like a book Embracing Reason: Egalitarian Ideals and the Teaching of High School Mathematics (Studies in Mathematical Thinking and Learning Series)? Wide variety you have a different opinion about publication. But one aim this book can give many info for us. It is absolutely appropriate. Right now, try to closer together with your book. Knowledge or details that you take for that, you can give for each other; it is possible to share all of these. Book Embracing Reason: Egalitarian Ideals and the Teaching of High School Mathematics (Studies in Mathematical Thinking and Learning Series) has simple shape nevertheless, you know: it has great and big function for you. You can appear the enormous world by start and read a guide. So it is very wonderful.

Jeffrey Gorski:

Spent a free time for you to be fun activity to try and do! A lot of people spent their spare time with their family, or all their friends. Usually they performing activity like watching television, planning to beach, or picnic inside the park. They actually doing same thing every week. Do you feel it? Will you something different to fill your personal free time/ holiday? May be reading a book can be option to fill your free time/ holiday. The first thing that you ask may be what kinds of book that you should read. If you want to try look for book, may be the publication untitled Embracing Reason: Egalitarian Ideals and the Teaching of High School Mathematics (Studies in Mathematical Thinking and Learning Series) can be great book to read. May be it may be best activity to you.

Isabel McNeal:

You may spend your free time you just read this book this reserve. This Embracing Reason: Egalitarian Ideals and the Teaching of High School Mathematics (Studies in Mathematical Thinking and Learning Series) is simple to develop you can read it in the playground, in the beach, train as well as soon. If you did not have much space to bring typically the printed book, you can buy the particular e-book. It is make you much easier to read it. You can save often the book in your smart phone. Therefore there are a lot of benefits that you will get when you buy this book.

Alice Concannon:

What is your hobby? Have you heard this question when you got learners? We believe that that problem was given by teacher on their students. Many kinds of hobby, All people has different hobby. And you also know that little person such as reading or as studying become their hobby. You need to understand that reading is very important and book as to be the thing. Book is important thing to increase you knowledge, except your

own personal teacher or lecturer. You get good news or update in relation to something by book. Many kinds of books that can you go onto be your object. One of them is actually Embracing Reason: Egalitarian Ideals and the Teaching of High School Mathematics (Studies in Mathematical Thinking and Learning Series).
