## **Custom Maid Knowledge for New World Disorder** Peter G. de Krassel

Political commentator Peter de Krassel contends that globalization was a 19th Century model of economics that was based on scarcity and actually died in the last decade of the 20th Century when the whole World was in surplus.

In this fast paced geopolitical journey across America, China, the Middle East and beyond, de Krassel looks at the history of the major empires of the last 150 years (including that of the USA), their achievements, shortcomings and religious failures that all lead to globalization. Learning from the past he posits "interlocalism" as the successor to globalization.

This latest book in his Custom Maid series offers a completely revolutionary new approach to contemplating our future and is must read material for anyone with an interest in understanding the political and economic situation now and wanting to see how the future might look.
