A Body of Writing, 1990-1999 Bronwyn Davies

Weaving together her most influential writings of the 1990s, Bronwyn Davies offers a unique engagement with poststructuralism that defies the boundaries between theory and embodied practice. Whereas poststructuralists are often accused of excessive abstraction, Davies' sophisticated and nuanced discussions of subjectivity, agency, epistemology, feminism, and power are embedded in vital depictions of lived experience and empirical research. A renowned scholar of education and gender formation, Davies shows the importance of poststructural perspectives for her own research in classrooms, on playgrounds, with literary texts, and her own life history. Lucid prose—accessible for students and refreshing for researchers and theorists alike—makes poststructural concepts usable as conceptual frameworks for interpreting and analyzing the social world.
