Crime and Terrorism (Compact Criminology) Peter Grabosky, Michael S. Stohl

Terrorism and crime are two areas of knowledge that have traditionally been looked at independently. In this timely and original text, two of the leading authors in the field provide a clear and thorough look at terrorism from a criminological perspective.

Integrating the latest research, the book explores the motives of criminals and terrorists, the causes of crime and terrorism and the impact of the law and the legal system. Central to this exploration, the authors examine the nexus between criminal and terrorist organizations, and the commonalities and differences between them and what this means for public policy and safety and security within states.

Cross-cultural and international in perspective, this is a fresh and original text that will appeal to undergraduates, academics, and researchers in criminology, politics, international relations, sociology, communication and cultural studies.

Compact Criminology is an exciting series that invigorates and challenges the international field of criminology.

Books in the series are short, authoritative, innovative assessments of emerging issues in criminology and criminal justice – offering critical, accessible introductions to important topics. They take a global rather than a narrowly national approach. Eminently readable and first-rate in quality, each book is written by a leading specialist.

Compact Criminology provides a new type of tool for teaching, learning and research, one that is flexible and light on its feet. The series addresses fundamental needs in the growing and increasingly differentiated field of criminology.
