The Merchant of Venice (Shakespeare Handbooks) Christopher McCullough

This volume, while it raises all the questions appertaining to the cultural, historical and critical contexts of the play, has as its primary focus the play as theatrical performance. This focus is not taken in isolation, but observed in terms of all the social, material and practical aspects of theatrical production. The questions raised are those that face actors, stage managers and directors, scenic and costume designers, in the rehearsal room and on the stage.
