Youth, Education, and Marginality: Local and Global Expressions is a close examination of the lives of marginalized young people in schools. Essays by scholars and educators provide international insights grounded in educational and community practice and policy. They cover the range and intersections of marginalization: poverty, Aboriginal cultures, immigrants and newcomers, gay/lesbian youth, rural—urban divides, mental health, and so forth. Presenting challenges faced by marginalized youth alongside initiatives for mitigating their impact, the contributors critique existing systems and engage in a dialogue about where to go from here.

Youth poetry, prose, and visual art complement the essays.
