Tales from Hell Donnefar Skedar

In this book of tales, I should please you with the very best of the terror genre, a good and exciting book that will certainly keep your attention from the beginning to the end of it.

Tales of Hell is not a small book; moreover, it comprises all the other tales that were published in the e-Book, such as Dark Moon – of great repercussion when published in the site “Recanto das Letras”.

This volume is divided in three parts called “ books “,and aims at putting together the cold and bloody tales that freaked out your minds when you woke up in the middle of the night or took a walk at the break of twilight.

After having selected these short stories with wise and ghastly devotion, I now leave you with the tales that have surely come from no other place but Hell!

Yours truly,

D.Skedar
